

Class II Holiday Homework
My Family My Strength
My Home my world... It's a heaven on Earth!!

Dear Parents,

You are your child's first teacher, their role model. This summer spend some quality time with them, read a book together, travel and discover things together. Let them enjoy the little joys of life with you, their grandparents, the extended family and friends. Make memories and while you are in this make sure you capture moments.

Also ensure that while they enjoy the summer, they are also nurtured in terms of learning, here are some fun activities that they can do, be sure you are a facilitator while they partake in these activities.

Dear Children,

Home and family are the biggest gifts you can ask for. Spend time with your family members and enjoy the vacation but remember to be a good learner. Spend some time on your hobbies, enjoy the nature and the company of your family. Be a keen observer, look at things that happen around you and try to learn new things.

But, don't forget to revise all the work done in school till now for all the subjects.

Also try to improve your handwriting by practicing one page daily for English as well as Hindi.

Try to learn tables from 2 to 10

Here are some activities you can do while you are enjoying the summer vacation. Please ensure that all of this is done neatly .
