

# INTERNATIONAL FOOD FESTIVAL

An enthused DAV Kailash hills organised international food festival on the occasion of children's day. The event successfully amalgamated fun with learning. The staff and the students organised food stalls to represent India, it's neighbours like Pakistan and China as well as far off nations such as Italy and USA. The students not only got an opportunity to relish various kinds of cuisines but also got an insight into the cultural heritage of these nations. The event all in all was a great learning experience for the students.
